

## TAKE CONTROL OF YOUR ONLINE REPUTATION TODAY

Your reputation is what you say about yourself and what others say about you. Every day, customers are talking about your business on websites like Yelp, TripAdvisor, Google Maps, Facebook, blogs and elsewhere, and this chatter has a direct impact on your revenue – it's time you join the conversation.

Reputation Management gives you control over your online presence by helping you correct online listings, respond to reviews, benchmark yourself against competitors and more.

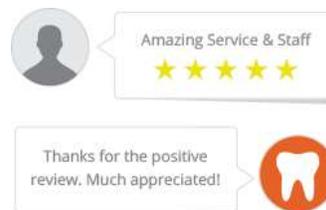

**Verify your listings to improve your search rank**

**Hear what people are saying all over the web**

**Push positive reviews out to multiple sources**

**Stay in-the-know with regular reports**

Verify the accuracy of your online business listings across review sites, directory sites and social networks.

Compile mentions from a variety of sources, including news sites, blogs and social networks.

Generate new positive reviews, and pull in results from major review websites to view overall scores.

Executive reports break down how your business is faring in online conversations and helps you understand what to do.

Inconsistent listing data can lead to poor placement in search results.

Plus, highlight the most positive and negative mentions using automated sentiment analysis.

See which keywords your customers are using to describe your business.

Alerts are also sent every time new information is found.

## BENEFITS

- Hear what your customers are saying about your business on review sites, blogs and social networks
- Ensure your online listings are consistent across the internet
- Monitor your employees' activity on social media
- See how your online presence compares to your competition
- Receive regular, actionable reports that help improve your presence
- Gather reviews from customers both online and in-store with **Review Generation**; control which reviews go public and which stay private
